FENCING SYDNEY

FREE MEASURE & QUOTE -
SUPPLY & INSTALLATION
OF QUALITY
FENCING & GATES

www.Fencing.Sydney

MATERIALS AND COLOUR

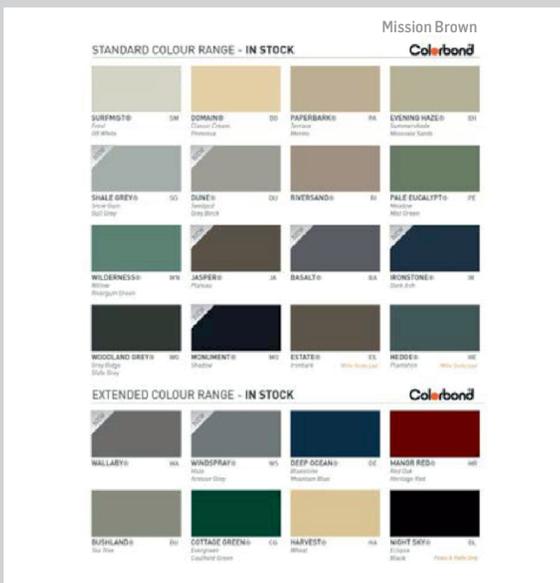

We only use Genuine Colorbond (Bluescope Steel) material which has laser insignia on each panel.

All Colours are the same cost & choosing a different colour framing to the sheeting is the same cost.

Every Colorbond Post is set 600mm deep into the soil and a full 20 kg Bag of Concrete is used for each hole.

We can build Colorbond Fencing a maximum 2.4m in height.

We can extend the height of an existing Colorbond fence a maximum of up to 600mm higher.

FOR SUPPLY ONLY OF COLORBOND FENCE HEIGHT EXTENSION PANELS AND POOL FENCING VISIT

www.Fencing.Sydney/shop

We need an approximate length and we can email a quote with a button for you to click to arrange a prompt site inspection. Then a site visit can be arranged.

We measure the fencing for free, email a visited estimation. You accept the quote and we arrange a starting time. An initial deposit is required and final payment is paid once invoice is emailed on completion we accept either by cash or bank transfer. Warranty is then issued.

QUESTIONS AND ANSWERS

What are the processes involved in getting a new fence built?
Send us dimension or call, we will respond with an instant fence price, or you can use our instant price calculator. You than can accept the quote or ask for an onsite visit. We lock in a starting time and call you the day before starting.

Why are our prices so competitive?
We specialize in Colorbond fencing. For over 10 years.

When can you start building the fence?
Within 1 to 2 weeks from an accepted date.

How high can I build my new Colorbond fence?
The standard height is 6 foot, 1.8 meters. Fencing panels are also available in 1.5m, 2.1m and 2.4m heights.

Do the Gates come with a lock?
Yes, all gates come with a standard D-Latch which can be paddled on one side and opened from both sides. The Double Gates also come with a Drop Lock. A Double Sided Key Lock is an addition cost.

Can I extend the height of my existing Colorbond fence?
What height options do the Insert Height Extensions come in? 300mm or 600mm for inserts. If you use sheeting fills we can make it any desired height up to 600mm.

How long does it take for Custom Height Extension panels to be available?
Generally, within 10 working days from ordering.

What comes in a Height Extension Panel?
2 Cpost Extensions, 1 Rail, 1 Insert and Coloured Tek Screws.

Do you build Retaining Walls?
Yes, we build treated pine timber sleeper retaining walls (H4 Standard) . The sleepers are 2.4m in length, 200mm in height and 50mm wide.

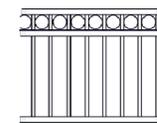

Can I backfill the fence boundary with small rocks or gravel?
Do not back fill the fence line/ boundary with loose gravel. It does not support the concreted posts. The ground around the concreted posts needs to be compacted to support the fencing.

How do I pay for the fencing?
Once the final invoice has been emailed either Cash, Bank Transfer or Credit Card.
